INDEX TO VOLUME XIII

PAGE

Adams-Stokes syndrome, three cases of, with histological findings; Adele Oppenheimer and B. S. Oppenheimer 957
Addis, Thomas: Urobilin: its clinical significance 235
Adrenals, the alleged influence of, on diabetic metabolism; animal calorimetry: Paper VIII; Graham Lusk and J. A. Riche 673
Agnew, J. Howard: Comparative study of phenolsulphonephthalein elimination and the incoagulable nitrogen of the blood in cardiorenal diseases .. 485
Albuminuria, orthostatic, a study of the blood-pressure in children showing; Murray H. Bass and H. Wessler 39
Alveolar air, a comparison of methods of obtaining; Walter M. Boothby and Francis W. Peabody 497
Amebas, the classification of; with observation on morphology and life cycle of entamoeba coli, craigia hominis and vahlkampfia lobospinosa; Chas. F. Craig 737
Amylase in the urine, a clinical study of, with special reference to the phenolsulphonephthalein test; H. Rawle Geyelin 96
Atophan and lithium, the influence of, on uric acid excretion of a gouty patient; Amy L. Daniels 480
Atropin, a study of the action of, on the eosinophil cells of the blood; W. W. Herrick 794
Auricular fibrillation, paroxysmal; G. Canby Robinson 298
Auriculoventricular bundle, clinical observations of defective conduction in the branches of; a report of twenty-two cases in which aberrant beats were obtained; Edward Perkins Carter 803
Auriculoventricular bundle of His, fatty infiltration (lipomatosis) of, with sudden unexpected death; Frank Nuzum 640

Baldwin, Edward R.: Experimental studies on the blood serum of cows immunized against tuberculosis 682
Barach, Joseph H.: Blood-pressures; their relation to each other and to physical efficiency 648
Bartlett, Frank K.: Multiple primary malignant tumors, with a report of two cases in dogs 624
Bass, Murray H.: A study of the blood-pressure in children showing orthostatic albuminuria 39
Bastedo, Walter A.: Materia medica 987
Bechtel, R. E.: A case of systemic blastomycosis with necropsy 609
Beekman, Fenwick: An experimental study of intestinal obstruction 701
Blastomycosis, systemic, with necropsy, a case of; R. E. Bechtel and E. R. LeCount 609
T. H. Boughton and S. N. Clark 594
T. H. Boughton and A. M. Stober 599
T. Churchill and A. M. Stober 568
J. S. Eisentaedt and T. H. Boughton 617
H. Jackson 607
R. A. Krost, A. M. Stober and M. J. Moes 557
M. Lewison and H. Jackson 575
F. B. Riley and E. R. LeCount 614
Philip Frank Shaffner 621
A. M. Stober 509
H. J. Myers and A. M. Stober 585

PAGE

Blood, a study of the action of atropin on the eosinophil cells of; W. W. Herrick 794
Blood-flow in the hands in diseases of the heart: Study X; G. N. Stewart.... 1
Blood-flow in the hands and feet in certain diseased conditions of the vessels or of their venous mechanism: Study XI; G. N. Stewart..... 177
Blood in chronic vascular nephritis (arteriosclerosis) as influenced by the level of protein metabolism, the non-protein nitrogenous constituents of; Otto Folin, W. Denis and Malcolm Seymour..... 224
Blood-pressure in children showing orthostatic albuminuria, a study of; Murray H. Bass and H. Wessler..... 39
Blood-pressure sounds, interpretation of the auscultation; D. R. Hooker and J. D. Southworth..... 384
Blood-pressures; their relation to each other and to physical efficiency; Jos. J. Barach and W. L. Marks..... 648
Blood serum of cows immunized against tuberculosis, experimental studies of; sensitization of living tubercle bacilli; Edward R. Baldwin..... 682
Blood, the coagulation of normal human: An experimental study; Roger I. Lee and Beth Vincent..... 398
Blood transfusion, experiments to develop a more widely useful method of; Henry S. Satterlee and Ransom S. Hooker..... 51
Boggs, Thomas R.: The intrameningeal treatment of tabes and cerebrospinal syphilis 970
Book Reviews: Materia medica; by Walter A. Bastedo..... 987
Organic and functional diseases; by M. Allen Starr..... 507
Protein split products in relation to immunity and disease; by Victor C. Vaughan, Victor C. Vaughan, Jr., and J. Walter Vaughan..... 987
Boothby, Walter M.: A comparison of methods of obtaining alveolar air.. 497
Boughton, T. H.: Blastomycosis.....594, 599, 617
Broders, Albert Compton: Chronic gastric ulcer and its relation to gastric carcinoma: Review of 684 specimens..... 208

Calorimetry, animal, Paper VIII. The alleged influence of the adrenals on diabetic metabolism; Graham Lusk and J. A. Riche..... 673
Cardiac displacements in pulmonary tuberculosis, the mechanism of; Maurice Fishberg 656
Cardiac remedies, the comparative value of; Theodore C. Janeway..... 361
Cardiorenal disturbances, comparative study of phenolsulphonephthalein elimination and the incoagulable nitrogen of the blood in; J. Howard Agnew 485
Carter, Edward Perkins: Clinical observations of defective conduction in the branches of the auriculoventricular bundle; a report of twenty-two cases, in which aberrant beats were obtained..... 803
Cerebrospinal syphilis, the intrameningeal treatment of tabes and; Thomas R. Boggs and R. R. Snowden..... 970
Churchill, T.: Systemic blastomycosis..... 568
Circulation in man. X. The blood-flow in the hands in diseases of the heart. G. N. Stewart..... 1
Circulation in man, studies on the. Study XI. The blood-flow in the hands and feet in certain diseased conditions of the vessels or of their venous mechanism; G. N. Stewart..... 177
Clark, S. N.: A case of blastomycosis..... 594
Connor, Lewis A.: A pulmonary attack simulating primary lobar pneumonia caused by pulmonary embolism and infarction from a latent venous thrombosis 349
Craig, Chas. F.: The classification of amebas, with observations on morphology and life cycle of entamoeba coli, craigia hominis and vahlkampfia lobospinosa 737

PAGE

Craig, Charles F.: The differential diagnosis of the intestinal entamebas of man 917
Cragia hominis, entamoeba coli, and vahlkampfia lobospinosa, with observations on morphology and life cycle of, the classification of amebas; Chas. F. Craig 737

Dementia praecox, metabolism in; Ellison L. Ross 889
Denis, W.: The non-protein nitrogenous constituents of the blood in chronic vascular nephritis (arteriosclerosis) as influenced by the level of protein metabolism 224
Digestive ferments, the mutual action of certain; J. H. Long and G. W. Muhleman 314

Eisentaedt, J. S.: A case of systemic blastomycosis 617
Emerson, Haven: Status lymphaticus in adults, its clinical diagnosis and importance 169
Entamoeba coli, craigia hominis and vahlkampfia lobospinosa, with observations on morphology and life cycle of; the classification of amebas; Chas. F. Craig 737
Entamebas of man, intestinal, the differential diagnosis of; Charles F. Craig 917

Fatty infiltration (lipomatosis) of the auriculoventricular bundle of His, with sudden unexpected death; Frank Nuzum 640
Field, Cyrus W.: A method developed for obtaining a standard Wassermann antigen 790
Fishberg, Maurice: The mechanism of cardiac displacements in pulmonary tuberculosis 656
Fitz, R.: Study XXI: The immediate effect of repeated doses of theobromin sodium salicylate and theocin on renal function in acute experimental nephritis 945
Folin, Otto: The non-protein nitrogenous constituents of the blood in chronic vascular nephritis (arteriosclerosis) as influenced by the level of protein metabolism 824
Force, J. N.: A skin reaction indicative of immunity against typhoid fever. Studies in typhoid immunization. III 471

Gay, Frederick P.: A skin reaction indicative of immunity against typhoid fever. Studies in typhoid immunization. III 471
Gastric ulcer, chronic, and its relation to gastric carcinoma. Review of 684 specimens; William Carpenter MacCarthy and Albert Compton Broders 208
German measles (rubella): An experimental study; Alfred F. Hess 913
Geyelin, Rawle H.: A clinical study of the amylase in the urine, with special reference to the phenolsulphonephthalein test 96
Gonococcus complement fixation test and analysis of results from its use. B. A. Thomas and Robert Ivy 143
Granat, Selma: The urea content of the spinal fluid with special reference to its diagnostic and prognostic significance; a series of 97 cases 131
Gross, M. H.: Ulcus ventriculi 426

Hartwell, John A.: An experimental study of intestinal obstruction 701
Heart block with Adams-Stokes syndrome, a pathological study of two cases of; Edward B. Krumhaar 390
Heat, the effect of, on blood-pressure; L. H. Newburgh and C. H. Lawrence.. 287
Held, I. W.: Ulcus ventriculi 426
Hemophilia, thrombosis and purpura, the conditions of the blood in; W. H. Howell 76
Herrick, W. W.: A study of the action of atropin on the eosinophil cells of the blood 794
Hess, Alfred F.: German measles (rubella): An experimental study 913
v. Hess, C. L.: Hexamethylenamin 853

PAGE

Hexamethylenamin; Hugh McGuigan and C. L. v. Hess 853
Hexamethylenamin, the value of, as an internal antiseptic in other fluids of the body than urine; Frank Hinman 841
Hinman, Frank: The value of hexamethylenamin as an internal antiseptic in other fluids of the body than urine 841
Hooker, D. R.: Interpretation of the auscultation blood-pressure sounds 384
Hooker, Ransom S.: Experiments to develop a more widely useful method of blood transfusion 51
Houget, J. P.: An experimental study of intestinal obstruction 701
Howell, W. H.: The condition of the blood in hemophilia, thrombosis and purpura 76
Hypercholesterinemia, clinical study of; Harry B. Schmidt 121

Immunity, some relations of the brain and of the olfactory apparatus to the processes of; Henry Sewall 856
Intestinal obstruction, an experimental study of; John A. Hartwell, J. P. Houget and Fenwick Beekman 701
Ivy, Robert: The gonococcus complement-fixation test and analysis of results from its use 143

Jackson, H.: A case of systemic blastomycosis 575, 607
Janeway, Theo. C.: The comparative value of cardiac remedies 361

Krost, R. A.: A case of systemic blastomycosis 557
Krumbhaar, Edward B.: A pathological study of two cases of heart-block with Adams-Stokes syndrome 390
Krumwiede, Charles: Attempts to produce scarlatina in monkeys 909

Lawrence, C. H.: The effect of heat on blood-pressure 287
Lewison, M.: A case of systemic blastomycosis 575
LeCount, E. R.: A case of systemic blastomycosis with necropsy 609
LeCount, E. R.: A case of systemic blastomycosis 614
Lee, Robert I.: The coagulation of normal human blood. An experimental study 398
Lithium and atophan, the influence of, on the uric acid excretion of a gouty patient; Amy L. Daniels 480
Long, J. H.: The mutual action of certain digestive ferments 314
Lusk, Graham: Animal calorimetry: Paper VIII. The alleged influence of the adrenals on diabetic metabolism 673

MacCarty, William Carpenter: Chronic gastric ulcer and its relation to gastric carcinoma. Review of 684 specimens 208
Marks, W. L.: Blood-pressures, their relation to each other and to physical efficiency 648
Marshall, E. K., Jr.: A comparison of the excretory power of the skin with that of the kidney through a study of human sweat 159
McGuigan, Hugh: Hexamethylenamin 853
Mesonephros, the physiologic degeneration of, with a consideration of antagonistic action of organs and of functional mutation with morphological persistence; Horst Oertel 770
Metabolism in dementia praecox; Ellison L. Ross 889
Moes, M. J.: A case of systemic blastomycosis 557
Muhleman, M. S.: The mutual action of certain digestive ferments 314
Myers, H. J.: A case of systemic blastomycosis 585

Nephritis (arteriosclerosis), the non-protein nitrogenous constituents of the blood in chronic vascular, as influenced by the level of protein metabolism; Otto Folin, W. Denis and Malcolm Seymour 224

PAGE

Nephritis, the immediate effect of repeated doses of theobromin sodium salicylate and theocin on renal function in acute experimental: Study XXI; R. Fitz 945
Newburgh, L. H.: The effect of heat on blood-pressure 287
Nicholl, Matthias, Jr.: Attempts to produce scarlatina in monkeys 909
Nuzum, Frank: Fatty infiltration (lipomatosis) of the auriculoventricular bundle of His, with sudden unexpected death 640

Oertel, Horst: The physiologic degeneration of the mesonephros, with a consideration of antagonistic action of organs and of functional mutation with morphological persistence 770
Oppenheimer, Adele: Three cases of Adams-Stokes syndrome with histological findings 957
Oppenheimer, B. S.: Three cases of Adams-Stokes syndrome with histological findings 957

Peabody, Francis W.: A comparison of methods of obtaining alveolar air .. 497
Phenolsulphonephthalein elimination and the incoagulable nitrogen of the blood in cardiorenal diseases; J. Howard Agnew 485
Phenolsulphonephthalein test, a clinical study of amylase in the urine with special reference to the; H. Rawle Geyelin 96
Plaggemeyer, H. W.: A comparison of the excretory power of the skin with that of the kidney through a study of human sweat 159
Pneumonia treated with antipneumococcus serum, twenty-three cases of; William R. Williams 978
Pratt, Josephine S.: Attempts to produce scarlatina in monkeys 909
Pulmonary attack simulating primary lobar pneumonia, caused by pulmonary embolism and infarction from a latent venous thrombosis; Lewis A. Connor 349
Pulmonary embolism and infarction from a latent venous thrombosis, a pulmonary attack simulating primary lobar pneumonia caused by; Lewis A. Connor 349

Riche, J. A.: Animal calorimetry: Paper VIII. The alleged influence of the adrenals on diabetic metabolism 673
Riley, F. B.: A case of systemic blastomycosis 614
Robinson, G. Canby: Paroxysmal auricular fibrillation 298
Ross, Ellison L.: Metabolism in dementia praecox 889
Rubella, German measles; an experimental study; Alfred F. Hess 913

Satterlee, Henry S.: Experiments to develop a more widely useful method of blood transfusion 51
Scarlatina in monkeys, attempts to produce; Charles Krumwiede, Jr., Matthias Nicoll, Jr. and Josephine S. Pratt 909
Schmidt, Harry B.: The clinical study of hypercholesterinemia 121
Sewall, Henry: Some relations of the brain and of the olfactory apparatus to the processes of immunity 856
Seymour, Malcolm: The non-protein nitrogenous constituents of the blood in chronic vascular nephritis (arteriosclerosis) as influenced by the level of protein metabolism 224
Skin, a comparison of the excretory power of, with that of the kidney through a study of human sweat; H. W. Plaggemeyer and E. K. Marshall, Jr ... 159
Snowden, R. R.: The intrameningeal treatment of tabes and cerebrospinal syphilis 970
Soper, Willard E.: The urea content of the spinal fluid with special reference to its diagnostic and prognostic significance. A series of ninety-seven cases 131
Southworth, J. D.: Interpretation of the auscultation blood-pressure sounds 384
Starr, M. Allen: Book review: Organic and function diseases 507

PAGE

Status lymphaticus in adults, its clinical diagnosis and importance; Haven Emerson 169
Stewart, G. N.: Studies on the circulation in man. X. The blood-flow in the hands in diseases of the heart 1
Stewart, G. N.: Studies on the circulation in man. XI. The blood-flow in the hands and feet in certain diseased conditions of the vessels or of their venous mechanism 177
Stober, A. M.: A case of systemic blastomycosis 509, 557, 568, 585, 599
Stober, A. M.: Systemic blastomycosis. A report of its pathological, bacteriological and clinical features 509
Sweat, human, a comparison of the excretory power of the skin with that of the kidney through a study of; H. W. Plaggemeyer and E. K. Marshall, Jr. 159

Tabes and cerebrospinal syphilis, the intrameningeal treatment of. Thomas R. Boggs and R. R. Snowden 970
Theobromin sodium salicylate and theocin, the immediate effect of repeated doses of. Study XXI. On renal function in acute experimental nephritis. R. Fitz 945
Theocin and theobromin sodium salicylate, immediate effect of repeated doses on renal function in acute experimental nephritis. R. Fitz 945
Thompson, Loyd: The titration of Wassermann reagents 904
Thomas, B. A.: The gonococcus complement-fixation test and analysis of results from its use 143
Tuberculosis, experimental studies on the blood-serum of cows immunized against; sensitization of living tubercle bacilli. Edward R. Baldwin 682
Tuberculosis, pulmonary, the mechanism of cardiac displacements in. Maurice Fishberg 656
Tumors, multiple primary malignant. With a report of two cases in dogs. Frank K. Bartlett 624
Typhoid immunization, a skin reaction indicative of immunity against typhoid fever, studies in; III. Frederick P. Gay and John N. Force 471

Ulcus ventriculi. M. H. Gross and I. W. Held 426
Urea content of the spinal fluid with special reference to its diagnostic and prognostic significance. A series of ninety-seven cases. Willard E. Soper and Selma Granat 131
Uric acid excretion of a gouty patient, the influence of lithium and atophan on the uric acid secretion. Amy L. Daniels 480
Urobilin: Its clinical significance. Ray Lyman Wilbur and Thomas Addis 235

Vahlkampfia lobospinosa, entamoebi coli, and craigia hominis, with observations on morphology and life cycle of; the classification of amebas 737
Vaughan, V. C., V. C., Jr. and J. W.: Protein split products in relation to immunity and disease 987
Vincent, Beth: The coagulation of normal human blood. An experimental study 398

Wassermann antigen, a method developed for obtaining a standard. Cyrus W. Field 790
Wassermann reagents, the titration of. Loyd Thompson 904
Wessler, M.: A study of the blood-pressure in children showing orthostatic albuminuria 39
Wilbur, Ray Lyman: Urobilin: its clinical significance 235
Williams, William R.: Twenty-three cases of pneumonia treated with anti-pneumococcus serum 978
